Financial Studies Super Curriculum: MOOCs

MOOCs (Massive Open Online Courses) are free online courses. They are a great way to develop your understanding of financial concepts in preparation for the Financial Studies course and to explore more about financial topics beyond the specification content.

Your challenge for the next stage of induction is to have a go at one or more of these course to broaden your knowledge of areas relating to financial services.

They are designed for completion over a number of weeks so could keep you busy all summer or you could dip in and out of modules that appeal.

Try one of these free courses from **Future Learn**:

The Future of Payment Technology https://www.futurelearn.com/courses/payment-technology
